Livestock Supply Chain and Feedlot Tour

Northern Tablelands Local Land Services is hosting tours visiting feedlots and processing plants to help farmers understand their markets, how specification effects market destination and how feedback from feedlots and processors can be used to better inform breeding decisions on farm.

**Departing Glen Innes (United Service Station) – 6.30am Monday 13th May & returning Tuesday 14th May 2019**

**Highlights include:**

- **Thomas Foods International** (Tamworth) is a state of the art facility processing 11,000 small stock units per day (lamb, mutton and goat). Thomas Foods International employs nearly 3,000 people across its processing and distribution facilities in Australia and overseas.

- **Elders Killara Feedlot** (Quirindi) is a supplier of quality cattle to both domestic and export markets, with feeding programs ranging from 70 days through to 150 days.

- **JBS Australia** (Scone) - JBS employs more than 8,500 people Australia-wide, has a network of ten strategically located processing facilities and five feedlots and a daily processing capacity of more than 8,000 cattle and 21,000 small stock.

**RSVP 26 April 2019 – space strictly limited**
