

Sheep Genetics Search Tool How to Guide: Navigating the results page

A guide to navigating the results page

For: ram breeders, ram buyers and service providers

The search site allows you to customise the way you view information. This is a guide on the data display features of the site.

i) Percentile Highlights

You can choose what percentiles are highlighted. This includes being able to highlight up to the top 20 percentile as well as turn on bottom percentile highlights.
