

Using the MateSel Results Tool

This new tool is available to MateSel users to make it easier to quickly interpret their run results. It operates from a web browser and automatically creates trait histograms and summaries.

Download the *MateselMatings.xlsx* file from your run

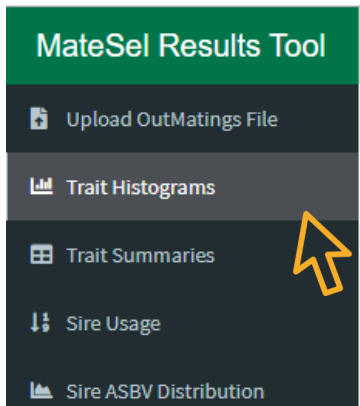

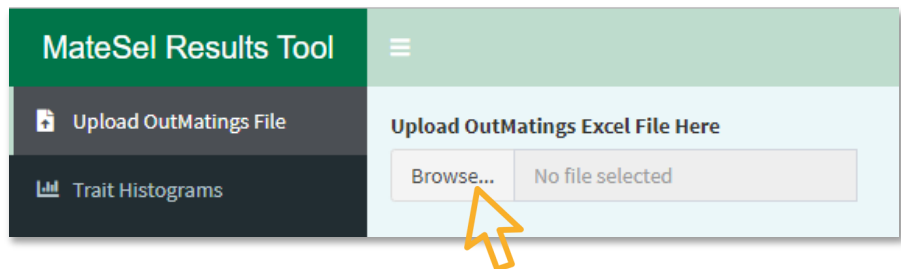

Open the MateSel Results Tool:

<https://pbradley.shinyapps.io/MateSelOutputFileReader/>

Browse for your *MateselMatings.xlsx* file

Generally, this will be in your *Downloads* folder.

Select the way you want to view your results
