

Sheep Genetics Search Tool

How to Guide: Creating and linking accounts

A guide to creating and linking an account to flocks and service providers for the search site

For: ram breeders, ram buyers and service providers

You can create and register an account to use the search site. The best thing is that anyone can create an account and it's FREE!

When you are logged in you can:

- Access your results
- Access files to put into your on-farm software
- Save searches
- Customise and save your ASBV columns of interest
- Export results
- Access your flock's information and create catalogues

For Sheep Genetics clients you need to ensure that your account is linked to your flock/s. You know if your account to a flock when you see the box below filled in with your correct details.

Figure 1: 'Your flocks' tile on the search site dashboard when you log in to Sheep Genetics showing you have a flock linked to your account

If your flock or service provider is not linked to your account, please see the flow chart below about the steps required to get ready to use the site. For more information on how to link a service provider to a flock please see the how to guide for allocating a service provider.

Figure 2: Flow diagram of creating and linking accounts on the Sheep Genetics website

Key Steps:

Registering for a search site account and linking it to your flock

1. Create an account by clicking on the “register button” on the search site

2. Complete the form on the register page

A screenshot of a registration form titled "Sign up to the Sheep Genetics search site". The form includes a paragraph explaining the benefits of signing up, a note that all fields are mandatory unless marked as optional, and a link for existing users to "Log in". The form is divided into two sections: "Your details" and "Location".

Sign up to the Sheep Genetics search site

By signing up to use the search site users will be able to save their default list of traits and save searches. Sign up is available to everyone. Additional functionality is available within the site for ram breeders that have flocks registered with Sheep Genetics.

Please complete the fields below. All fields are mandatory unless marked as optional.
